

Result-oriented and enterprising professional with nearly **3+ years of experience** in **Full Stack Web Development**.

SKILLS

Languages & Databases

- Java
- JavaScript
- MySQL
- MongoDB

Frameworks & Libraries

- ReactJS
- SpringBoot
- Angular

Tools & Technologies

- Microservices
- HTML
- CSS
- Eclipse
- VSCode
- Spring Suite
- Git
- GitHub
- Postman

EDUCATION

B.Tech in Computer Science from a college affiliated with Jawaharlal Nehru Technological University, Hyderabad in 2020 with 6.84 GPA

12th from SR Junior College in 2016 with 80.8%

10th from Lead India School in 2014 with 8.8 GPA

PERSONAL DETAILS

Date of Birth: 13th Nov 1998

Languages Known: English & Telugu

Permanent Address: 4-79, Venkatapur, Duggondi, Warangal, Telangana 506331

PROFILE SUMMARY

- Proficient in Java, JavaScript, MySQL, and MongoDB, with hands-on experience in developing and maintaining modern web applications using the **JAVA Stack**.
- Skilled in building and releasing software configurations using Java Full Stack, coupled with expertise in system administration, engineering, and coding.
- Experienced in troubleshooting performance tuning, administration, and resolving application conflicts and system bugs, ensuring maximum network availability.
- Demonstrated ability to participate in the **Software Development Lifecycle (SDLC)**, from requirement analysis to maintenance of proposed applications, ensuring seamless project delivery.
- Expertise in front-end development with **ReactJS, HTML, and CSS** adept at mapping business requirements and designing applications for Information Systems Management.
- Hands-on experience in **Spring Boot framework**, facilitating efficient development and deployment of Java-based applications.
- Proficient in using tools such as **Eclipse, VSCode, Spring Suite, Git, GitHub, and Postman** for development, version control, and testing.
- Skilled in **microservices** architecture, enabling the development of scalable and modular software systems.
- Experienced in performing root cause analysis for production errors, investigating and resolving technical issues to ensure system integrity.

WORK EXPERIENCE

Since Jan'21 | **Software Engineer** | [Quinnox](#) | Bangalore

Key Result Areas:

- Integral role in the ongoing development of Qinfinite, a substantial AMS platform, focusing on implementing core functionalities and ensuring continuous enhancement.
- Collaborated as a vital member of a dedicated team, leveraging technologies like React, Spring Boot, Apache Camel, and microservices to deliver robust solutions for diverse client needs.
- Contributed to the refinement of Qinfinite features, enhancing usability and performance to meet market demands.
- Utilized Agile methodologies to adapt to changing priorities and deliver value iteratively, ensuring the success of ongoing development efforts.
- Played a key role in the development of HHO (Home Healthcare Orders), contributing to the implementation of core functionalities and ensuring scalability.
- Actively engaged in the ongoing refinement of HHO, participating in collaborative efforts to expand functionalities and address emerging requirements.
- Demonstrated ability to tackle complex challenges and deliver innovative solutions to propel the evolution of critical platforms like Qinfinite and HHO.
- Utilized technology expertise and collaborative skills to deliver robust solutions that meet diverse client needs and ensure platform success.
- Contributed to the continuous enhancement of Qinfinite and HHO, working diligently to refine features and improve performance.
- Employed a proactive approach to development, actively engaging in collaborative efforts and utilizing Agile methodologies to deliver value iteratively and ensure platform scalability.
